Patrick Carlberg

has successfully completed the online Specialization

Data Visualization with Tableau

In this Specialization, you learned how to generate powerful reports and dashboards that help people understand and draw insights from data. You used Tableau, the leading software application in the field, to create high-impact visualizations of common data analyses, and apply predictive analytics to improve business decision making. The Specialization culminated in a Capstone Project in which you used sample data to create visualizations, dashboards and data models to prepare a presentation to the executive leadership of a fictitious company.
